Vol. 1 Thursday, August 8, 1935. No. 13

Published in the interest of the residents of Champion and District.

What about persuasion for old folks? We have the blinder wipers, Miss Cameron—"Now, Jimmy, what happened when the cow jumped over the moon?"

Jimmy—"Somebody got an idea for vanishing cream."

When you buy a refrigerator, you want one that can always be depended upon—first to preserve your food properly and second to freeze plenty of ice and deserts quickly. He cause it has exclusive Super Freezer the best.

See the new Coleman hot plates on display, and—sturdy—fast—safe and instant. He give the good wife a selection dope and returns. We have a new complete stock of radio batteries.

Local Hospital News: Mrs. E. H. Fisher, Mrs. August Siegel and Miss Ruth Anderson all feeling fine. Mr. Warden D. K. Jimmy has gone home, Miss Ray says there is something missing around here.

Sweet Young Thing: My boy friend has cold feet.

Fond Auntie—Shame on you, young lady. In my day we didn't find out those things until we were married.

Mocker—Say "hello" to the lady, Junior; don't you remember meeting her with daddy, last Junior—Hello, but!

Wm. Penn and North Starville "will the best."

Miss Ruth Anderson is in the local hospital for an operation and is progressing nicely.

A snivle actress was caught in for a prospect "Single?" asked the clerk.

"Occasionally," answered the actress.

Certainly you want to get the radio and—batteries.

## Lengthy Session At McPherson Meeting

There were about a hundred present at the meeting held in the Community hall Monday at which Mr. McPherson, the U. F. A. candidate was the speaker. The majority of his talk was on the fallacy of the Social Credit plan of Mr. Aberhart, for a short time he dwelt on the U. F. A. policy and briefly on their platform. A lengthy question period kept the meeting going till nearly one o'clock.

## Interesting Talks At W. I. Conference

The Women's Institute held a splendid conference on Wednesday with about one hundred ladies present. The morning session was taken up with various reports. Mrs. Ferguson of Trochu, provincial president who gave a short talk on the trip to Prince Edward Island and Mrs. Grevett also gave the highlights on the Federal W. I. of Canada. Among others on the platform were Mrs. Thompson of Canidale, Mrs. Todd of Valen, Mrs. Hagerman, Mrs. Clements, Mrs. Aleock and Mrs. Bastin. Songs were given by Rev. Lawson, J. C. McNaughton, Mrs. A. S. Roberts and a monologue by Beverly Roberts.

## Home Team Wins Prize Money. Barons

Champion brought home the first prize at the Barons Sports Day on Friday last. In the first game they were drawn against Camusangny, and a good close game was played resulting in their favor by one point, the score was 6 to 5. The second game with Barons was one sided as regards the score of 9 to 0, most of the runs being made in the first inning; the Barons pitcher was not on hand at the start.

## Winter Wheat

The time of year has arrived when farmers who are planning to seed winter wheat will be giving some thought to this crop. The acreage devoted to winter wheat has increased considerably in recent years, and from inquiries received, it appears that the acreage seeded to winter wheat this fall will exceed that of last fall to a considerable extent.

In the early years of this state's operations, an experiment was conducted to determine the best date for seeding winter wheat. From the results obtained, we recommend seeding as close to the first of September as possible. Many farmers have been in the habit of seeding much earlier than this date, and in certain seasons Root Rot has caused considerable damage. In the same seasons, this disease was found to be prevalent in Montana and other western states. Investigations in Montana to determine the cause of this disease, indicated that it was much more prevalent where early seeding was practiced, but that the fields seeded from September 1st on seemed to escape damage from this disease.

The real reason for this letter is to caution farmers not to sow their winter wheat earlier than September 1st; owing to the fact that wheat seeded the first week in September will not make a great deal of growth it will not control soil driftings as much as would be desired; but it is thought by some to provide a little protection. The practice of seeding winter wheat in stubble is perhaps still in the experimental stage, although the results obtained for the last six years have been somewhat promising.

An experiment has also been conducted to determine the best rate of seeding, and our results seem to indicate that one bushel per acre is the best rate to recommend for summer fallowed land.

The variety in common use throughout the district is Kharkov, and at present there is no variety under test at the station which we would recommend in preference to Kharkov. A strain of this variety, known as Kharkov M. C. 22 was introduced to the district a few years ago, and has been giving good results. It is a strain which originated at Marshall College, Quebec and was selected as the best of a number of strains tested, on account of its winter hardiness and yielding capacity.

An examination of the yields obtained from winter wheat and from spring wheat on summer fallowed land in different rotation at the station where a proper comparison for these two crops can be drawn, show that the average yields of these two crops have been fairly close. Results obtained at the station over a period of the past 23 years, show that winter wheat has out-yielded spring wheat to a slight extent, the average yield of winter wheat being 27.31 bushels per acre, and that of spring wheat, 25.92 per acre. These crops were grown on summer fallowed land in both cases. During the 23-year period, the winter wheat plot killed out completely in only one season. The plot was seeded to spring wheat the following year.

Thursday, August 8 1935

The crop situation here looks very favorable, that is the crops that were still standing up before the rains came. The heads are filling out splendidly, and it is the opinion of some that there will be as much grain harvested here as last year. One problem this fall in harvesting will be the pig weed that has made considerable growth, and will be still very green when the wheat is ready to cut. It is surprising the recovery that some fields have made since the rains. The oat crop is also doing fine. Here and there the wheat heads are beginning to turn yellow, this year the ripening process will be from the head down.

## LIBERTY'S CANADIAN HALL OF FAME No. 7

Without equipment or advice, Dr. Melvin Locke of Williamsburg, Ontario, made a million dollars during the four years in the world was watching their divide.

For a while he called the doctor with the X-ray hands. He made nickel cigars, has never had his shoes shined and says there is no such thing as a free lunch. Williamsburg has increased since he has been holding forth there.

Dialing rich people, though he is wealthy himself, and owns the largest privately owned navy in the world. He makes a dollar to what a patient's sent twice and \$10 to deliver a baby. Has never had a mother die in childbirth during twenty-four years of practice.

Lives on Main Street with his wife, who still washes the clothes, although they employ three servants. Works sixteen hours in the rain sometimes. Says he will never retire and doesn't know what to do with his money. Hopes his son, Parker, will follow in his footsteps. Never sends out a bill or letters to his patients unless they're old timers. Treats cronies in the kitchen. Has less privacy than a gold fish and twice its.

## If Dreams Come True

Last evening I was talking With a printer aged and gray, Who told me of a dream he had Just after Christmas day.

While snoozing in his office, The vision came in view; He saw an angel enter, Dressed in garments white and new.

Said the spirit: 'I'm from heaven; The Lord has sent me down To bring you up to glory— Put on your golden crown.

"Many merchants you've made richer, From fees received full pay, While you've grown poor and poorer And your business did decay.

"So we need you up in glory, For you have labored hard, Until your brow was weary— You have earned a great reward."

Then the angel and the printer Started towards the golden gate.

When passing close to hedges, The angel murmured, "Wait! 'Here's a nook I wish to show you: It's the hottest place in hell, Where the devils who beat the printer In a awful torment dwell." The old printer saw before him Old patrons by the score; An easy chair and fan he grabbed And asked for nothing more. He sat and sat and watched them; Saw them sizzle, scorch and burn, And his former editors saw him Whichever way he'd turn. Said the angel: "Come up higher And the fiery gates we'll see," But the printer only answered: "This is heaven for me" Ben Franklin Witness.
